SCDX Repeater 145.48 MHz. Trans - 600. DX NET: Thursday, 7:30 PM

NEXT MEETING: THURSDAY, JUNE 12, 7:30 PM AT PATRIOTIC HALL

JUNE MEETING

The June club meeting will be held at Patriotic Hall , 1816 South Figueroa, in downtown Los Angeles. This is 18 blocks south of the DWP. It is near the intersection of the Harbor and Santa Monica Freeways. Parking is available behind the building, off of Flower.

The speaker for the evening will be William Longeran, General Superintendent for Telecommunications of the DWP. His topic will be radio interference. This should be a very exciting topic and one we have all experienced .

There also will be a repeater report. Find out where our new repeater will be installed.

Plans are under way for a new meeting place. We should have an answer for you by this meeting .

The return of the mystery guest is planned. Will you unmask that person and win a prize?

****

ROGER MACE - W6RW

On May 15, 1986, Roger Mace became a Silent Key. Roger's accomplishments in our hobby were many. Roger, 80 years old, was first licensed in 1923 as 9DUC from Indianopolis. He later became W9RQ. He was a charter member of the Southern California DX Club. He was the first amateur to receive DXCC on 160 meters for operation west of the Missippi River. 160 was his band. Roger was strictly a CW operator. His ham shack, near Mulholland Drive and atop a high hill, overlooked Hollywood and downtown Los Angeles. This site provided a good platform for his long wire antennas for 160. He had five antennas, with one 800 feet long oriented toward Japan.

In 1962 Roger was awarded the clubs "DXer of the Year" award. He was elected club president in 1953 and again in 1963. Roger was a warm and friendly person who took an active roll in club affairs, never hesitating to voice his opinion at club meetings.

We will all miss him and his humorous way of signing off with a W SIX ROGER WHOOO ?

MINUTES OF THE MAY 8, 1986 MEETING
By Russ Mason, KG6IP, Secretary

The meeting was brought to order by N6CGB at 8pm. N6OU gave a report on the current status of our attempts to regain the use of the DWP cafeteria. Several alternatives were suggested: Board of Education, Childrens Hospital, and the Red Cross. All suggestions should be submitted to N6CGB and KG6IP for follow up.

N6IC gave a convention report. There were 533 attendees. The exact figures are not complete, but all indications are that after expenses, we will clear $3000.00 .

Hugh Allen, awards chairman, noted that our club had several members who won awards. (See this issue-ed)
W6MFC presented N6CGB with his President's gavel.
WB6EXC was awarded the Clipperton Award by N6IC.

There was a discussion on the current DXpedition to Clipperton Island.

N6AV, Jerry Hagen, has returned to the Southern California area and is now residing in Costa Mesa.

W6AE moved that the current rules of the monthly DX competion be changed back to the original format to allow consecutive monthly winners. It was seconded and after many comments and discussion, a vote was taken. The motion carried and the rules changed back .

Len Kleiman, W6KGP, has returned to the SCDXC. W6GC announced the estate sale of K6OS.

NK6A explained a statement made in last months Bulletin.

Raffle tickets were sold during the break followed by a slide presentation by WA6LOD of Guam and Indonesia.

The raffle followed the belated introductions of members and guest. Raffle winners drawn were: W6AE, WI6V, KG6IP, WB6EXC, N6CGB, and W6GC.
The prizes were from Ham Radio Outlet, Anaheim.
Meeting Adjourned.

****

QSL BUREAU

The W6-QSL Bureau reminds us to make sure we are up to date with envelopes, new calls, and postage.

Old and new calls should be together on the upper left corner of the SASE. This will clean up the old backlog and prevent old calls from getting lost in the shuffle.

Send your envelopes, extra postage, and "thank you's" to the many managers who sort our cards to:

W6-QSL Bureau
P.O. BOX 1460
Sun Valley, CA 91352

****

Congratulations to Paul Robinson, W6GYM, for being named to the State Board of Architectural Examiners by Gov. Deukmejian.

W6FRZ REPORT

Propagation in early AM hours opening to Asia, VU and the Far East. After sunset there have been good openings to the Middle East and Europe on 20 meters.

It may be the low end of the current Sun Spot Cycle but from the low end of the Cycle in the 70's propagation is still better than the bottom of the last cycle.

As a member of the repeater committee, we are looking at a new site. This should serve all of L.A. and Orange county. We are also looking into the purchase of a new repeater. There should be more news on this in the next few weeks.

****

CLASSIFIED
